Good afternoon,

Here are a few things we wanted you to know about:

Public Information Meetings

Join us for Gordie Howe International Bridge Public Information Meetings. We will be at CHASS Center in Detroit on September 19, 2023, and at Mackenzie Hall in Windsor on September 21, 2023. Hear the latest updates on Community Benefits and construction progress on Canadian and US project components. Presentations will take place at 3:30 p.m. and 5:15 p.m. followed by a question-and-answer session.

PUBLIC INFORMATION MEETINGS

Tuesday, September 19, 2023
3:00 p.m. - 7:00 p.m.
CHASS Center
5635 W Fort Street
Detroit

Thursday, September 21, 2023
3:00 p.m. - 7:00 p.m.
Mackenzie Hall
3277 Sandwich Street
Windsor

Questions will be accepted in advance, during, and following the event.
To submit your questions in advance, email us no later than September 15, 2023, at info@wdbridge.com.

Time Lapse Video

Watch our new video featuring Gordie Howe International Bridge project components from April 2022 to July 2023. Watch the bridge and the Canadian and US Ports of Entry take shape in this time-lapse of our progress.

Final Steps in Gordie Howe International Bridge Tower Construction Underway

Those watching the construction of the Gordie Howe International Bridge will see major changes at the US bridge tower over the next four weeks. The project team has completed the final step in tower construction. With the last concrete pour for the sloped architectural heads at the top of the US tower now complete, the tower has reached its full height of 220 metres/722 feet. Read more in our latest news release [here](#).

Malden Park Observation Area

The Malden Park Observation Area will provide an attractive, safe location, using an existing high elevation in the region for residents, students and tourists to observe the construction of the Gordie Howe International Bridge.

Observation Area construction is anticipated to begin September 5, 2023, and will take place between the hours of 7:00 a.m. - 7:00 p.m. Construction is anticipated to take up to seven weeks to complete.

Construction activities include:

- excavation of the observation area
- foundational work and granular fill (mixed gravel)
- landscaping including mulch and planting trees and shrubs
- installation of furnishings like benches, railings and binoculars

[Learn more](#) and view observation area designs.

Building the Gordie Howe International Bridge

You read our spotlight story about the Gordie Howe International Bridge and road deck progress. Now watch this new video highlighting the progress in real time.

August Community Newsletter

The August Community Newsletter is available on our [website](#). Read about the final tower countdown, public art on the project, WDBA's new CEO, and community involvement on the project.

The Gordie Howe International Bridge project between Windsor, Ontario and Detroit, Michigan will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA) and working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America design, build, finance, operate and maintain the bridge.

TOWERS REACHING FINAL HEIGHTS

The final countdown has begun for the towers on the Gordie Howe International Bridge project to reach their final height. The public will see major changes at the US bridge tower over the coming weeks. The last concrete pour for the sloped architectural heads at the top of the upper pylon is now complete and the US tower has reached its full height of 220 metres/722 feet. Crews will be removing the jump form system which includes artwork by local Detroit-based artist Roberto Villalobos. These last steps are anticipated to begin at the Canadian bridge tower in September. This event marks a significant point in the construction of the Gordie Howe International

A Dog's Life on the Gordie Howe International Bridge Project

Enjoy this video featuring the dogs working on the Gordie Howe International Bridge project and learn about the important role they play in protecting species at risk on the active construction site.
