Good afternoon,

Here are a few things we wanted you to know about:

Gordie Howe International Bridge Becomes the First International Bridge to Join the Trans Canada Trail

The Gordie Howe International Bridge has joined the [Trans Canada Trail](#), becoming the first international bridge border crossing within the 28,000 km trail network. The bridge will link trail networks on both sides of the Canada-United States border, connecting the Great Lakes Waterfront Trail in Windsor, to the Iron Belle Trail and the Great Lakes Way in Detroit. Trail users will be able to cross the bridge using the multi-use path.

This collaboration between Trans Canada Trail and Windsor-Detroit Bridge Authority sets the stage for a trail system that transcends borders and promotes unity, tourism and economic prosperity. Read more about this exciting collaboration [here](#).

Gordie Howe International Bridge Multi-use Path

The Gordie Howe International Bridge project includes a dedicated multi-use path that will accommodate pedestrians and cyclists across the Windsor-Detroit border once complete. The multi-use path will be toll-free and includes one lane that will accommodate two-way pedestrian and cyclist traffic.

Share Your Input

The project team is seeking public input on the future operation of the multi-use path. Feedback is being accepted through an online survey and in-person at upcoming Public Information Meetings taking place on **March 19, 2024**, in Detroit and **March 21, 2024**, in Windsor.

Feedback gathered will be used to help inform the development of policies and will consider operational items related to access, public safety and user experience. **The survey closes on April 5, 2024.**

US Port of Entry Flyover and Photo Gallery

We released new drone footage and a [photo gallery](#) featuring the work being done at the US Port of Entry (POE). At the POE all 13 structures are under construction, including plumbing, drywall and in-wall piping work, installation of light fixtures and structural steel installations for canopies. Paving and grading work is also taking place throughout the site.

Gordie Howe International Bridge Workers Recognized for Lifesaving Actions

Last fall, two Gordie Howe International Bridge project workers rescued four people from a capsized boat in the Detroit River. Now, their life-saving efforts are being rewarded with Fluor's Silver Medallion of Safety. Congratulations and thank you to Dan Dombrow and Mike Isble. Read more [here](#).
