Good afternoon,

Here are a few things we wanted you to know about:

Gordie Howe International Bridge Multi-use Path

The Gordie Howe International Bridge project includes a dedicated multi-use path that will accommodate pedestrians and cyclists across the Windsor-Detroit border once complete. The multi-use path will be toll-free and includes one lane that will accommodate two-way pedestrian and cyclist traffic.

Share Your Input

The project team is seeking public input on the future operation of the multi-use path. Feedback is being accepted through a survey and in-person at upcoming Public Information Meetings taking place on March 19, 2024, in Detroit and March 21, 2024, in Windsor.

Feedback gathered will be used to help inform the development of policies and will consider operational items related to access, public safety and user experience. The survey closes on April 5, 2024.

Community Benefits Plan Allocates \$2.6 Million in New Investments

The Gordie Howe International Bridge project team continues to deliver on its commitment to enhance Sandwich/west Windsor and Delray/Southwest Detroit with \$2.6 million (CDN) in new investments. Thirteen new projects are being added to the project Community Benefits Plan to be delivered over 2024-2025.

This funding is part of the Neighbourhood Infrastructure Strategy, a \$23 million (CDN) direct community investment on both sides of the border developed through extensive community feedback. In 2023, the project team undertook community consultation to understand the current priorities of the neighbourhoods closest to the project and accepted new proposals.

The \$2.6 million will support:

- \$250,000 toward local history and culture
- \$1.24 million toward community safety
- \$540,000 toward green initiatives
- \$250,000 toward food security
- \$250,000 toward wellness
- \$100,000 toward community partnerships.

The new investment adds six new delivery partners to the Community Benefits Plan family. Funding has been released to the organizations and initiatives will be delivered over the next one-to-two years. Details on the new initiatives are available [here](#).

New Photo Galleries

New photo [galleries](#) have been added to the project website featuring progress on Michigan Interchange work and progress at the Canadian Port of Entry.

Canadian Port of Entry Flyover Footage

Check out this new flyover drone footage of the Canadian Port of Entry. All 11 buildings are in various stages of construction and paving and grading work has begun.
