ALTERNATIVE 1ALTERNATIVE 2ALTERNATIVE 3

As part of the Gordie Howe International Bridge project, five new pedestrian bridges will cross Interstate-75 in Detroit, Michigan to serve the community and enhance the aesthetic corridor experience for motorists as they travel through the region. Pedestrian bridges will be located over I-75 at (west to east): Solvay Street, Beard Street, Waterman Street, Junction Street and Lansing Street.

There are three design alternatives under consideration and we want to hear from you what design you like most.
