

# PONT INTERNATIONAL GORDIE HOWE INTERNATIONAL BRIDGE

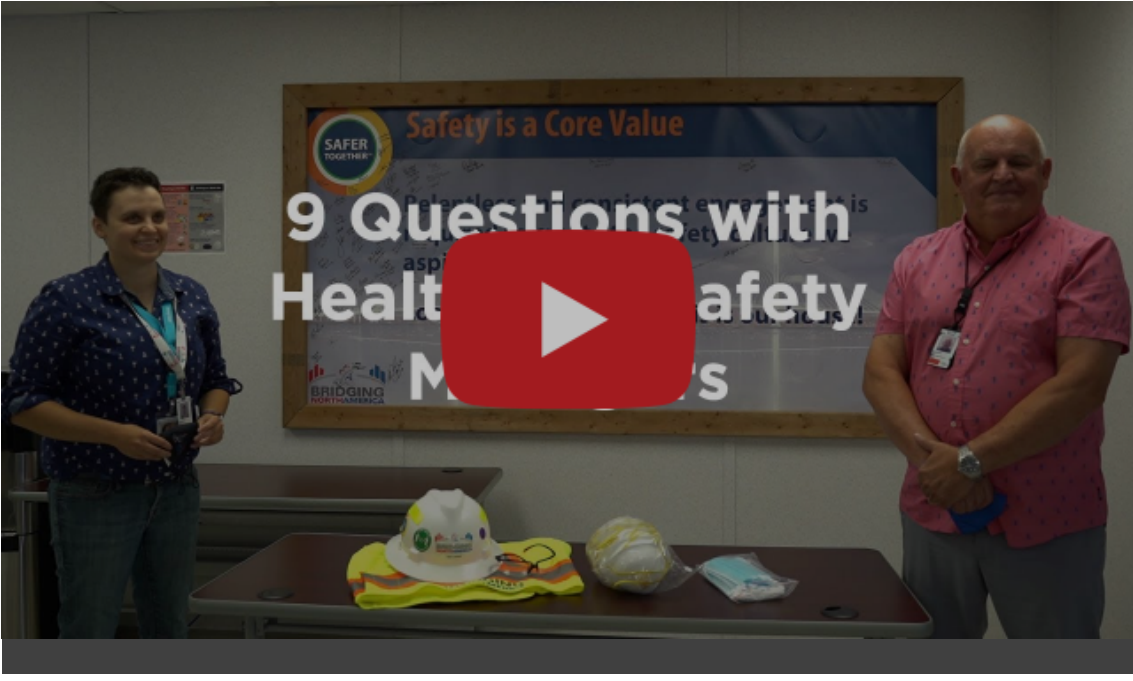

Good afternoon,

Here are a few things we wanted you to know about:

We will be closed on Monday, September 7, 2020 for Labour Day. Regular business hours will resume on Tuesday.

## How We're Protecting Our Workers

Monday, September 7, 2020 is Labour Day, a time when all of us celebrate the achievements of workers, including their right to return home each day safe and sound. The health, safety, and well being of our employees and those working on the construction site is fundamental to getting the Gordie Howe International Bridge project built. Watch our video to learn about what we are doing to protect workers' health and safety on the job.

## Raising Crane

It's a sign that construction is ramping up for the new Gordie Howe International Bridge. Two tower cranes and two smaller mobile crawler cranes now pierce the skyline along the Detroit River. There is one of each crane on the Canadian and US construction sites as crews work on the tower footings for the new 2.5 kilometre/1.5 mile Gordie Howe International Bridge. The tower cranes currently stand at 81 metres/265 feet tall but will be 'jumped' every few months before reaching their final height of 250 metres/822 feet. Read all about the cranes and view a time lapse video of them being constructed [here](#).

## Sandwich Street Reconstruction

A major reconstruction of Sandwich Street will be undertaken over the next few years to reflect Sandwich as a gateway community into Windsor once the Gordie Howe International Bridge is completed. The City of Windsor is holding an online Public Information Session on Thursday, September 3, 2020 from 4pm-6pm on the reconstruction project to inform residents and receive community input. Learn more in this video from Joe Dattilo, Project Administrator with the City of Windsor and find additional resources [here](#).

Join the online meeting [here](#). Use passcode #001640 to access the meeting.
