

# PONT INTERNATIONAL GORDIE HOWE INTERNATIONAL BRIDGE

Good morning,

We have a few project updates to share:

## Community Benefits Reporting

Since June 2019, the project team has been busy implementing many of the workforce development and neighbourhood infrastructure initiatives identified in the Gordie Howe International Bridge Community Benefits Plan.

The first Quarterly Community Benefits Report is now publicly [available](#) and highlights significant progress achieved to date, including:

- release of funds for Neighbourhood Infrastructure Strategy initiatives
- workforce development highlights and accomplishments
- economic development and education outreach
- Local Community Group representatives and engagement
- upcoming initiatives.

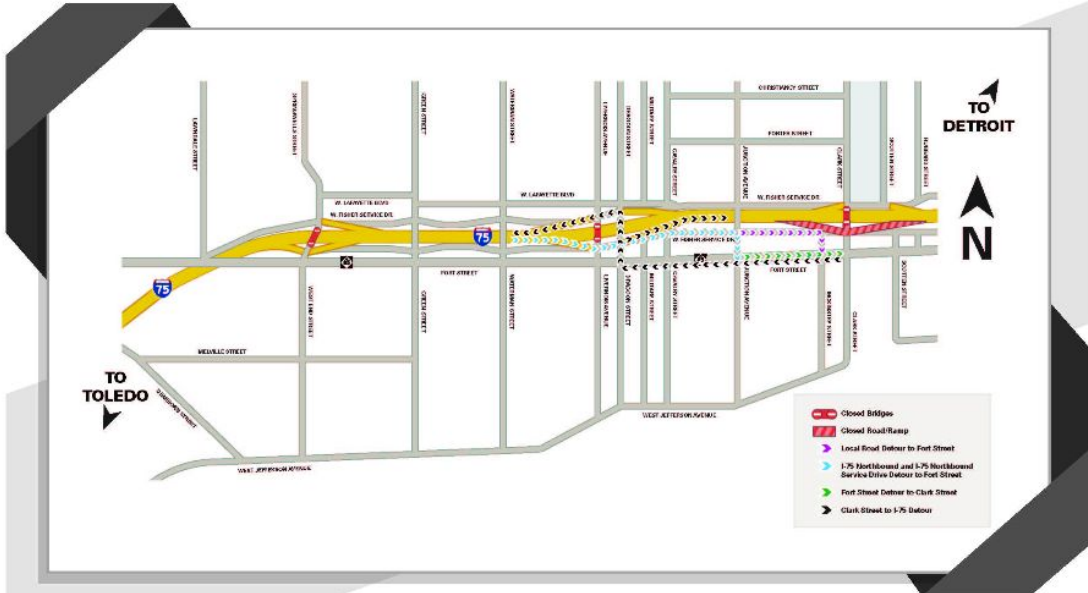

**Read the Winter 2020 Quarterly Community Benefits Report**

We're proud to be delivering a plan that is providing positive outcomes for our neighbours in Sandwich/west Windsor and Delray/Southwest Detroit and are committed to keeping stakeholders and members of the public informed along the way. Quarterly reports on progress and results will continue to be posted on [GordieHoweInternationalBridge.com](http://GordieHoweInternationalBridge.com) from 2020-2025.

## Upcoming Traffic Distruptions

As construction of the Michigan Interchange continues, Bridging North America will temporarily implement partial closures on Clark Street and I-75 northbound for construction activities.

### CLOSURES

- The on-ramp and off-ramp at Clark Street and I-75 northbound will close from April 20 to May 9, 2020.
- The I-75 Service Drive northbound will close from the Clark Street off-ramp to the on-ramp starting April 20 to May 9, 2020.

*Existing detour routes have been provided for access around the construction zone.*

### THE PROJECT

The Gordie Howe International Bridge project between Windsor, ON and Detroit, MI will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA), working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America design, build, finance, operate and maintain the bridge
