

PONT INTERNATIONAL GORDIE HOWE INTERNATIONAL BRIDGE

Cette publication est également disponible en français sur demande.

Good afternoon,

Here are a few things we wanted you to know about:

I-75 Closure for Road Bridges Demolition - This Weekend

As construction of the Michigan Interchange continues for the Gordie Howe International Bridge project, Bridging North America requires the temporary closure of Interstate-75 in both directions from Springwells Street to Clark Street beginning Friday, December 10, 2021, at approximately 7 p.m. to allow for demolition of four road bridges. Lanes will re-open by 5 a.m. Monday, December 13, 2021.

Additionally, the Vernor Highway on-ramp to southbound I-75 will close, as well as the Ambassador Bridge on-ramp to southbound I-75.

Local Traffic Detour:

- Northbound I-75 Traffic will be reduced to one lane and forced to exit at the northbound I-75/Springwells Street Exit Ramp, continue south on Springwells Street, east on Fort Street, north on Clark Street, then rejoin northbound I-75 via the northbound I-75 on-ramp.
- Southbound I-75 traffic will be reduced to one lane and forced to exit at the Clark Street I-75 Exit Ramp, continue north on Clark street, west on Vernor Highway, south on Junction, west on Fort Street to access I-75 southbound.

Major Through Traffic:

- Northbound I-75 major-through-traffic will be detoured around the project via northbound I-275 to eastbound I-96 for the northbound motorists.
- Southbound I-75 major-through-traffic will be detoured around the project via westbound I-96 to southbound I-275 for the southbound motorists.

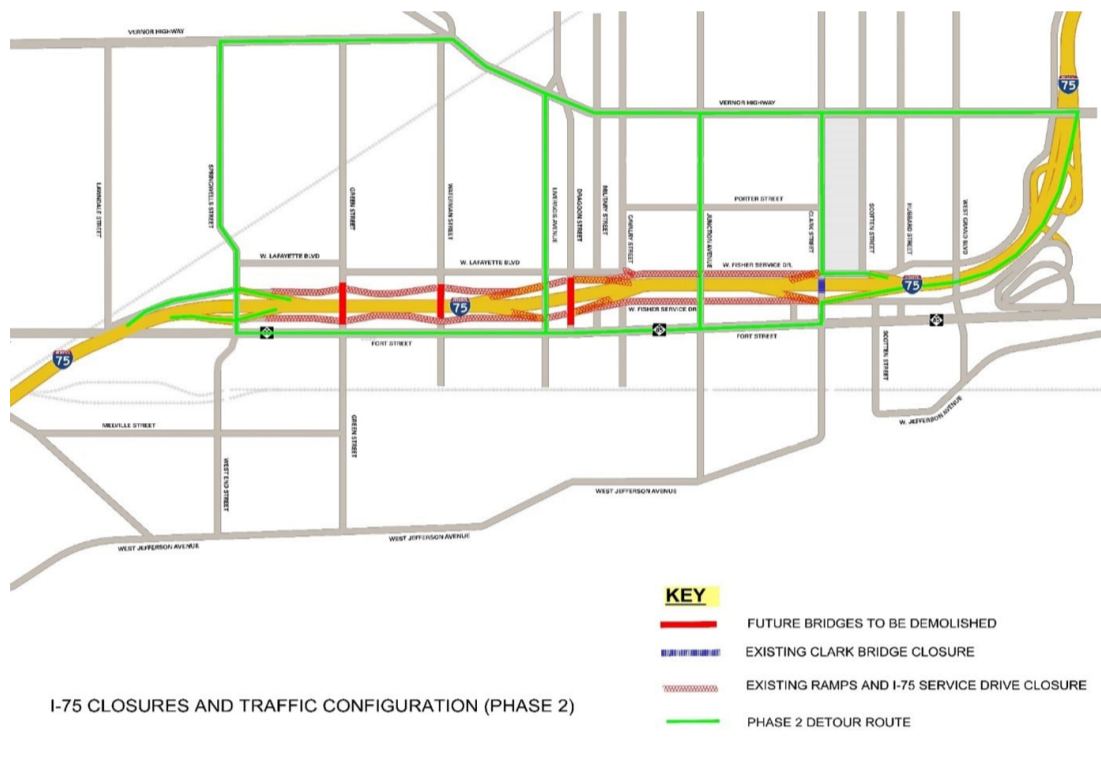

Ambassador Bridge Traffic:

- Traffic exiting the Ambassador Bridge toll plaza will be directed to take I-96 westbound, and then will take exit 191 to Michigan Avenue, head west on Michigan Avenue, south on the I-75 Service Drive, south on West Grand Boulevard, west on Fort Street, north on Springwells Street, south on the I-75 Service Drive, then will rejoin southbound I-75 via the Springwells Street on-ramp.

Vernor Highway On-Ramp Traffic:

- Traffic from the southbound I-75 Service Drive will be detoured to continue on the southbound I-75 Service Drive, south on W. Grand Boulevard, west on Fort Street, north on Springwells Street, south on the I-75 Service Drive, then will rejoin the southbound I-75 freeway via the Springwells Street on-ramp.

Information about Michigan Interchange Phase 2 construction activities and detour routes can be found at www.GordieHoweInternationalBridge.com.

Happy Holidays

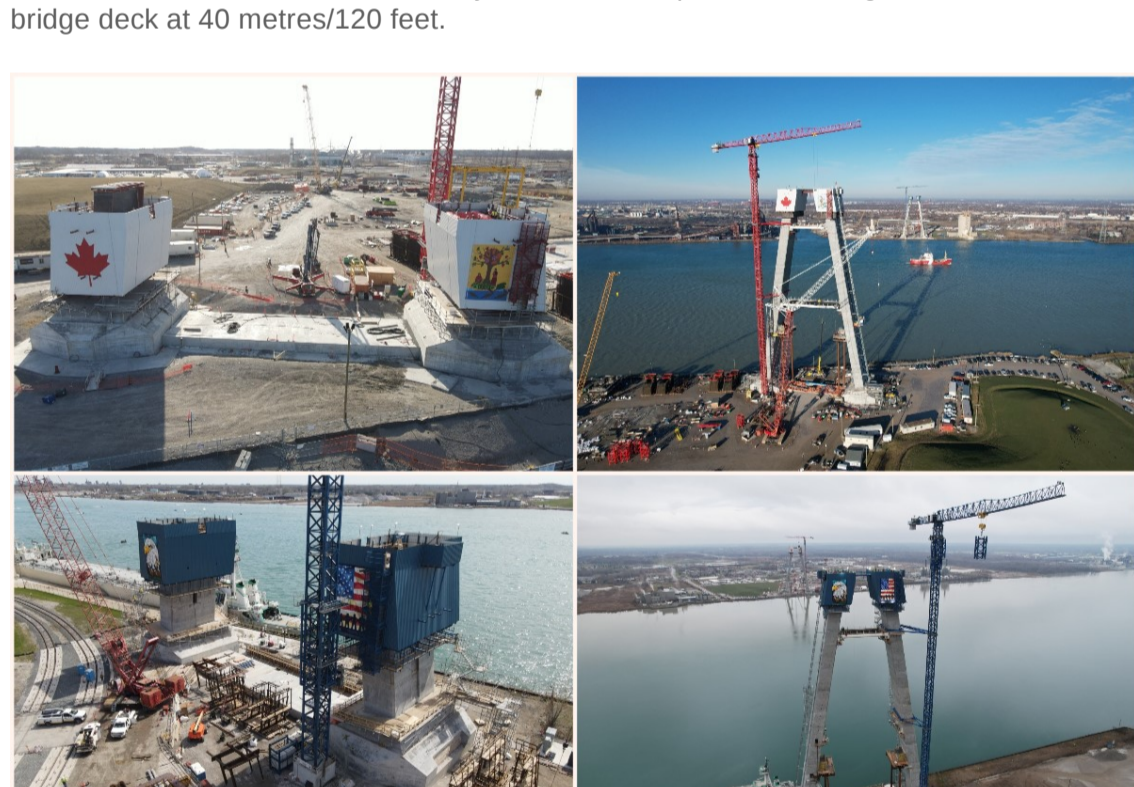

On behalf of Windsor-Detroit Bridge Authority and the team behind the Gordie Howe International Bridge project, we wish you happy holidays.

2021 Year In Review

2021 has been a year of accomplishments for the Gordie Howe International Bridge project. Over on our social media accounts, we have been posting highlights from the 2021 year including the moment below. Follow along each day [here](#).

Over the past year the Gordie Howe International Bridge project towers in Canada and the US have climbed to over 110 metres/360 feet tall. Once completed, the towers will stand at 220 metres/722 feet and will rival the height of the tallest building at the GM Renaissance Center in Detroit. In July the towers surpassed the height of the future bridge deck at 40 metres/120 feet.

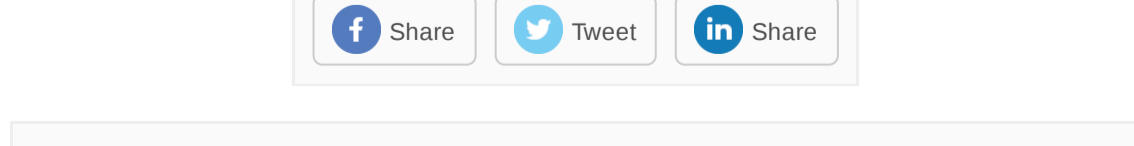

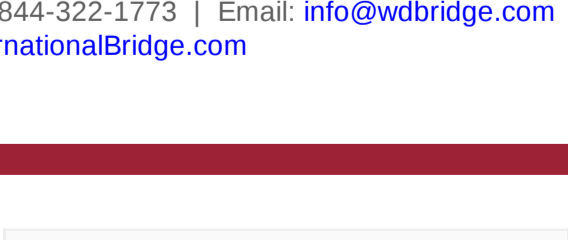

Envision Award

The Gordie Howe International Bridge project has earned the prestigious Envision Platinum Award from the Institute for Sustainable Infrastructure (ISI). This is the highest possible distinction from ISI recognizing efforts to achieve sustainable development & environmental performance standards at every stage from design- construction- implementation.
