

9 THINGS TO KNOW ABOUT...

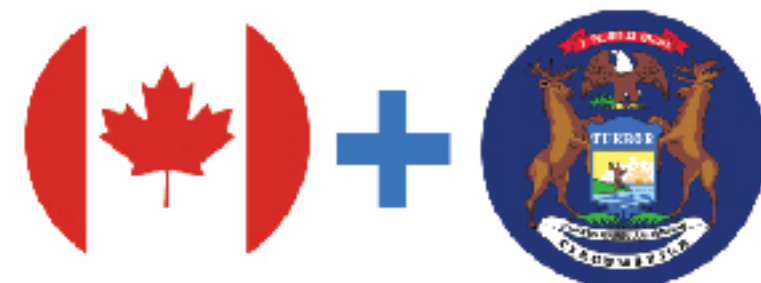

The Gordie Howe International Bridge

The Gordie Howe International Bridge project is the largest and most ambitious trade infrastructure project along the Canada-United States border. There are many things you should know about the once-in-a-generation undertaking. Here are just a few of them.

1 PUBLIC OWNERSHIP

The Gordie Howe International Bridge will be publicly owned by the governments of Canada and Michigan with financing by Canada.

2 JOBS

Gordie Howe International Bridge will create 1000s of jobs directly in Canada and US during construction and operation and through economic spinoffs.

3 BUY AMERICAN WAIVER

The waiver stipulates that all iron and steel for any component of the Gordie Howe International Bridge in US and the international bridge must be produced in either US or Canada.

4 PREPARATORY ACTIVITIES

\$150 million of preparatory activities are already underway in the US employing Americans.

5 COMMITTED FUNDING

The financing for the Gordie Howe International Bridge is secured as per the Crossing Agreement signed by Canada and Michigan. No Michigan funding is required.

6 COMMUNITY BENEFITS

Community Benefits are a requirement for Gordie Howe International Bridge project and will be based on the principles of our I-CARE Framework.

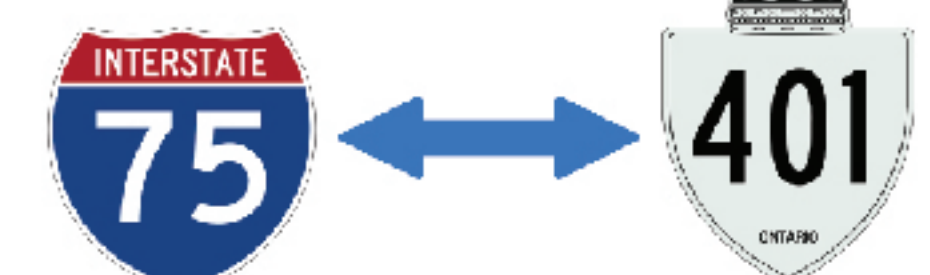

7 CONSULTATION

Gordie Howe International Bridge is the result of 1000s hours of consultation with individuals, community groups, businesses, trade unions and other stakeholders in US and Canada.

8 DIRECT CONNECTIONS

Gordie Howe International Bridge is the only border crossing in Windsor-Detroit to have direct connections to both Ontario's highway system and Michigan's interstate system.

9 CONSTRUCTION START

Construction of the Gordie Howe International Bridge will begin in fall 2018.
