

# Gordie Howe International Bridge

## Construction Activities: Canada

Dates and times provided below may change due to weather conditions and other factors affecting construction activities. Although this list is intended to be comprehensive, unavoidable emergency road detours and road closures may occur. Please watch for workers along this corridor. We apologize for any inconvenience and thank you for your patience

### Week of November 7, 2016

#### Perimeter Access Road (PAR)

Preparation work on the PAR road bed is ongoing and the construction of a temporary concrete paving plant is now complete. The plant will supply all the concrete required to build the PAR. The second phase of paving activity for PAR has begun with laying of concrete pavement.

#### Fill, Grading and Drainage

There is no fill, grading or drainage work currently planned.

#### Utility Work

Hydro One continues to install micro-piles along the utility corridor west of Sandwich Street and north of McKee Street. Micro-pile installation is expected to be complete by the middle of November 2016.

#### Temporary Road Closures

Starting November 8, 2016, access to Dainty Foods will be limited to the main driveway. The truck scale will not be accessible until next week due to paving operations on Broadway Street.

Broadway Street (from Linsell Avenue to Sandwich Street) and Sandwich Street (from Chappus Street to Broadway Street) will be closed to traffic until December 31, 2016.

For more details about these road closures, please visit the City of Windsor website: <http://www.citywindsor.ca/residents/construction/pages/construction-projects.aspx>.
