

The Gordie Howe International Bridge project requires significant construction activity, including the demolition and removal of existing infrastructure, reconstruction of select roadways and bridges, and construction of new project infrastructure.

One of the project components is the Michigan Interchange connecting to Interstate-75. Approximately three kilometres or 1.8 miles of I-75 between Springwells Street and Clark Street will require modifications to accommodate the ramps connecting to the US Port of Entry (POE). The future project configuration of this area includes the following:

I-75 between Springwells Street and Clark Street. See colours identified below.

### Road Bridges: ■

Road bridges carrying vehicular traffic over I-75 will be reconstructed at:

- Springwells Street
- Green Street
- Livernois Avenue (two-way traffic)
- Clark Street

### Pedestrian Bridges ■

Bridges for cyclists and pedestrians will be located over I-75 at:

- Solvay Street
- Beard Street
- Waterman Street
- Junction Street
- Lansing Street

### Noise Barriers ■

Noise barriers will be installed in locations identified through the Detroit River International Crossing study and Final Environmental Impact Statement re-evaluation completed in 2018. Noise barriers will be located along the north side of I-75 between:

- Green Street and Rademacher Street
- Livernois and Junction Street
- Junction Street and Clark Street.

### Access Ramps ■

North and southbound I-75 ramps will be accessible as follows:

#### Northbound Exit Ramps:

- Springwells Street
- I-75 exit to US POE (**new**)
- Campbell Street (**new**)
- US POE exit to I-75 (**new**)

#### Northbound I-75 Entrance Ramps:

- Springwells Street
- Livernois Avenue
- Clark Street

#### Southbound Exit Ramps:

- Clark Street
- I-75 exit to US POE (**new**)
- US POE exit to I-75 (**new**)
- Waterman Street (**new**)
- Springwells Street

#### Southbound Entrance Ramps:

- Springwells Street
- Junction Street

Work to deliver this component of the Gordie Howe International Bridge project will be delivered in a number of phases over the next few years. Phase One activities began in fall 2019 and is anticipated to be completed in mid-2021.
