Environmental Coordinator – term ending December 31, 2024

As an Environmental Coordinator, you will report to the Manager Permitting/Environmental and will be responsible to support oversight of environmental management activities required for the successful execution of the Gordie Howe International Bridge project. Not only will assist the Manager Permitting/Environmental, the Director Environmental and WDBA Project Managers in the implementation of the environmental management activities on this high-profile infrastructure project, we can offer you the following abilities, to:

- Review technical studies and detailed reports prepared by Bridging North America, consultants and other contributing parties, to ensure high quality and consistency with the Project Agreement. Provide summary report with recommendations to Manager Permitting/ Environmental.
- Monitor deliverables for technical accuracy and adequacy, checks calculations, and assesses need for potential changes in scope, cost, schedule or quality.
- During construction, carry out site visits for compliance, verification, and monitoring of work as required. Document findings and provide report and recommendations to Manager Permitting/ Environmental.
- Provide support and data to the WDBA Communications and Stakeholder relations group and Engineering Project Managers, as-needed.
- Assist the Manager of Permitting/Environmental and the Director of Environmental in the execution of P3 oversight activities.
- Attend and document discussions and action items from submittal review meetings and Technical Working Groups (TWGs).

To join this applied team, you will bring the following:

- Bachelor's degree in Environmental Science or Engineering or Diploma in a related field
- Registered, or qualified for registration, as a Professional Engineer / Geoscientist (P.Eng, P.Geo) in Ontario or PE in Michigan, considered an asset
- Minimum 5 years' in engineering, remediation, construction or related experience
- Demonstrated experience in the management of engineering activities during the various phases of large infrastructure projects considered an asset
- Strong understanding of the application of environmental regulations applicable to works in Ontario, Canadian Federal lands and Michigan
- Intermediate MS Office skills
- Familiarity with contract administration processes
- Knowledge of OHSA and MIOSHA an asset
- Ability to obtain a Government of Canada Personnel Screening/ Security Clearance
- Ability to travel within Ontario and Michigan; possess valid class G driver's license

Our culture is driven by knowledgeable professionals with a passion for their field and the Gordie Howe International Bridge. The following competencies are keys to your success within our team:

- Ability to communicate with construction oversight staff to ensure that environmental management goals are met
- Strong project management skills
- Strong oral and written communication skills
- Sound professional judgement, initiative and the ability to work well under pressure and manage multiple priorities to meet deadlines
- Strong ability to build and maintain positive relationships

- Ability to problem solve and make decisions, and do so with a strong attention to detail

We will reward your initiative with:

- Salary \$79,282 to \$96,900
- Comprehensive group benefits package
- Defined Contribution Pension Plan
- Paid Time Off Benefits – Vacation, Personal, Sick, Family, 12 Holidays
- Training and Development opportunities
- Relocation assistance may be provided, if required

Qualified applicants may email their resume to recruitment@wdbridge.com up to and including September 13, 2019. **Please quote file #WDBA-127.** Resumes must be submitted electronically and will only be accepted in MS Word or PDF format.

Although all applications are appreciated, only those candidates selected for an interview will be contacted.
