The Gordie Howe International Bridge project between Windsor, ON and Detroit, MI will help move goods and people more efficiently at this important trade gateway. Managed by Windsor-Detroit Bridge Authority (WDBA) working in collaboration with the State of Michigan, the project is being delivered through a public-private partnership (P3) which will see Bridging North America design, build, finance, operate and maintain the bridge.

Bridging North America will temporarily close several streets, including West End Street and three lanes on Fort Street, including the center median.

• West End Street will be closed between Fort Street and Melville Street, from September 29, 2020, to November 20, 2020. Local traffic and business traffic will have access to West End Street between Norfolk Southern Railroad to Melville Street.

• Traffic on Fort Street, between the northbound I-75 Service Drive and Wheelock Street, will be reduced to one lane each for westbound and eastbound traffic from September 29, 2020, to November 20, 2020.

• Temporary pavement markings will be installed on Fort Street on September 29, 2020, between 6 a.m. and 6 p.m., and on October 28, 2020, between 6 a.m. and 6 p.m.

Alternate routes have been provided around the construction zone.

We appreciate your cooperation throughout this project. Every effort will be made to reduce inconvenience to drivers, residents and the business community. If you have any questions or concerns regarding traffic or these construction activities find out more:
